

Our 'Leadership in Innovation' event will be 'graphically recorded' by Claire.

Claire Holgate brings ideas to life, capturing the essence of discussions live as they happen, in large, colourful pictures. The resulting drawings can be photographed and shared instantly via social media, or processed into useful digital images to be used on websites, via email or in printed material to help disseminate your messages to as wide an audience as possible.

We look forward to capturing the outputs from our day in this engaging and visual way. You will be sent a digital copy of the finished drawing after the event.
